

PORTFOLIO

My portfolio is more than just a collection of projects; it's a reflection of my dedication to learning and my passion for creating meaningful digital experiences. Designed using HTML, styled with CSS, and enhanced with JavaScript, my portfolio represents my growth as a web developer .

Technologies Used:

HTML: I've utilized HTML to structure the content of my portfolio, ensuring a well-organized and easy-to-navigate layout.

CSS: Leveraging CSS, I've carefully crafted the visual elements of my portfolio, using color schemes and typography to create a cohesive and visually appealing design.

JavaScript: JavaScript has empowered me to incorporate interactive elements, enhancing the user experience and demonstrating my programming skills.
